

November 2024

# Monthly Newsletter

Our performance continued to improve in November, underpinned by better productivity and the support of our esteemed customers.

The deployment of our state-of-the-art Terminal Operating System has enhanced the quality of gate, vessel and terminal planning.

Average waiting times have come down to 4 days, for November 2024, reflecting faster turnaround of vessels.

## Safety Signs at Terminal

As our performance and efficiency trend upwards, we are focussing extensively on HSSE parameters, prioritising safety at our terminal and premises.

As part of our safety enhancement initiatives, we have:

- Installed Safety signs in terminal
- Partnered with Operators/ stakeholders to conduct Joint Safety Drives
